Brand New Book ***** Print on Demand *****.This book uses real data from nearly 5,000 students to discuss what works and what doesn't for Ivy League admissions, and presents a plan that any student can use to maximize their chances of getting accepted to a top school. I analyzed SAT/ACT/GPA/test scores as well as qualitative things like extracurriculars and recommendations/essays from the College Confidential forums to build up a database of profiles and admission outcomes. The book is intended for high school students and parents who want to learn more about what happens behind the scenes in the admissions process and what things make an applicant competitive and what is just a waste of time. The three unique things about this book: 1. It discusses what happens after you submit your application, so you understand how you're evaluated. 2. It analyzes data from thousands of students (via College Confidential forum posts) to see what was effective. Some schools have systems to do this, but to date nobody has parsed data from all over the world to analyze outcomes...
