National Academies Press. Paperback. Book Condition: new. BRAND NEW, Capabilities for the Future: An Assessment of NASA Laboratories for Basic Research, Committee on the Assessment of NASA Laboratory Capabilities, Space Studies Board, Laboratory Assessments Board, Aeronautics and Space Engineering Board, Division on Engineering and Physical Sciences, Over the past 5 years or more, there has been a steady and significant decrease in NASA's laboratory capabilities, including equipment, maintenance, and facility upgrades. This adversely affects the support of NASA's scientists, who rely on these capabilities, as well as NASA's ability to make the basic scientific and technical contributions that others depend on for programs of national importance. The fundamental research community at NASA has been severely impacted by the budget reductions that are responsible for this decrease in laboratory capabilities, and as a result NASA's ability to support even NASA's future goals is in serious jeopardy.
