Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.I d much rather write fiction than to go back over eighty plus years looking for something worth putting down on paper about myself. After I started writing, I found my own life before marriage pretty dull and my personal want was to simply quit. But there were a couple of people who keep telling me I needed to do this, that it would give the generations coming along behind me a glimpse of what life-not just mine, but my generation-was like in the thirties and forties, the years which gilded my eighteen years of childhood So here goes-a few pages of my childhood memories as best I can remember them. Granted, they will be different than anything in the lives of those reading this, but it s the way things were back then, and for the most part I m glad to have been a part of it. Things were slower-paced, people were friendlier and always ready to lend a helping hand in time of need. Making big money didn t seem the major concern; caring for your family with what you had and the grace of God was. This book is about my childhood from as early as I can remember, pulling bits and pieces from the past to the time I stepped into adult life, marrying my Prince Charming at the age of eighteen. In other words, my growing up years.
