Filesize: 4 MB

### ***Reviews***

*This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.*

*(Juliet Mertz)*

## NATIONAL SCIENCE FOUNDATION: BETTER USE OF EXISTING RESOURCES COULD IMPROVE PROGRAM ADMINISTRATION: RCED-94-95

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 104 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. Pursuant to a congressional request, GAO reviewed the National Science Foundation's (NSF) Directorate for Education and Human Resources (EHR), focusing on: (1) how EHR establishes current and future priorities for its education programs; and (2) whether EHR has the resources it needs to effectively administer its programs. GAO found that: (1) EHR sets its program priorities through an informal process using internal and external advisory groups; (2) the National Science Board approves all new EHR programs, large awards, and multiyear commitments; (3) Congress has earmarked certain funds for specific education programs; (4) before 1991, EHR relied primarily on external peer oversight groups to determine the operational effectiveness of its education programs; (5) although EHR has implemented a comprehensive evaluation program that uses outside contractors to determine educational program effectiveness, most contractor reviews have not been completed; (6) NSF staffing levels have not kept pace with its increasing workload; (7) even though EHR has sufficient administrative resources to effectively administer its educational programs, EHR believes that its programs are not being effectively administered; (8) more effective use of EHR administrative resources could increase program effectiveness, ease program officers workload, increase the availability of travel funds for site inspections, and increase program officers effectiveness in monitoring grants and conducting evaluations; and (9) other NSF directorates could significantly increase their effectiveness if they adopted the proposed EHR administrative changes, since EHR operations and workloads are similar to that of other NSF directorates. This item ships from La Vergne, TN. Paperback.
