Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from **Cost of Living and the War: An Analysis of Recent Changes** This volume is a summarization and analysis of official and authoritative data bearing upon the cost of living with special reference to the families of wage- earners. Part II consists primarily of reprints from official publications of retail and wholesale price data and the results of original investigations and studies relative to the budgets of working- men s families. Part I is a brief analysis and interpretation of the data contained in Part II. This analysis has been made in an impartial way and with no object in mind beyond the presentation in a concise and readable form of the facts as to recent increases in prices and family living costs. The data in Part II is so arranged as to be readily accessible for reference or for use as a basis for further study or interpretation. The author wishes to make acknowledgment to the United States Bureau of Labor Statistics for its co-operation in giving him access to its records and data. He wishes also to express his grateful appreciation especially to Mr. Leifur Magnusson, of the staff of the Bureau of Labor Statistics, whose assistance in collecting and compiling data has been invaluable. The graphs were drawn by Mr. O. T. Feamster. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
